**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

*The 103 rejections of the prior office action have not changed.*

***Response to Arguments***

I. Applicant's arguments filed 11-19-2007 have been fully considered but they are not persuasive. Despite Applicant's remarks to the contrary, the claim language does *not* require a nested configuration such that the sides of the adjacent ribs are facingly-spaced apart as shown in his diagram on page 2 of his arguments. For example, applicant's claim 1 merely requires that the ribs maintain a gap when the media is folded onto itself. In the primary reference of Miller, when the top surfaces of adjacent ribs abut, a gap is maintained in the form of a flow channel. It is also pointed out that adding limitations to capture the configuration of applicant's diagram would be new matter. Applicant may wish to file a CIP.

***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
